

Sohn's Dilators®

for Standardized Anal Dilatation for anal fissure

AUTOCLAVABLE

Catalog No. SOD-03
Set of three dilators

- Standardized Anal Dilatation is an effective treatment for chronic anal fissure, with fewer complications and a lower rate of incontinence compared to lateral internal sphincterotomy.
- Success rates for anal dilatation to 40 mm for 6 minutes are 83% to 88%.
- Sohn's Dilators® are simpler and more economical than pneumatic balloons.
